

Parcel for D365

Finance and Operations

Automate **multi-carrier shipping processes**, reduce costs and cycle times

OVERVIEW

The BluJay Parcel solution is an enterprise class multi-carrier shipping management system that supports complex, high volume, multiple locations, and international and domestic shipping. Designed from the ground-up to support black box or attended ship stations in complex distribution environments, the flexible solution is used by thousands of companies every day, including Microsoft Dynamics® AX and D365 companies. Parcel for Microsoft D365 Finance and Operations merges all of Parcel's core functionality directly into D365FO, from the quotation and sales order process through to shipping, manifesting, invoicing and freight charge reconciliation.

SOLUTIONS AT A GLANCE

- › Enterprise class multi-carrier parcel shipping
- › Fully integrated with D365FO
- › Easy carrier connectivity: supports regional, national, and international carriers
- › Rate shopping
- › Returns solution
- › International shipping
- › AES filing
- › Visibility
- › Flexible application programming interface
- › Complementary add-on module

KEY FEATURES

- › Accelerates fulfillment by producing packing slips and carrier labels in one seamless workflow and capturing/validating serial numbers, saving labor costs and improving customer service
- › Provides full carrier compliance, ensuring flexibility and choice
- › Enables you to maintain control and visibility of shipments
- › Gives ability to quote an accurate shipping cost at order entry or during the customer's website experience
- › Improves customer service
- › Enforces corporate shipping policies and rates
- › Minimizes risk of international shipments with global trade compliance features

5M+ cartons shipped
every day with
BluJay's Parcel

FULLY INTEGRATED INTO MICROSOFT DYNAMICS® 365 FINANCE AND OPERATIONS IN COLLABORATION WITH **AMB SOLUTIONS**

SALES ORDER INTEGRATION

- › Quick access to Shipping options in Sales Order Creation Screen
- › Consolidation of Shipping information within Sales Order Header
- › Special delivery options such as adult signature required, certified mail and more
- › Rate shopping from the Sales Quotation, Sales Order or Packing Workbench based on weight or dimensions
- › Select or change carrier and service based on rate shopping
- › Ability to charge Rate Shop rate to customer based on Rate shopping from Sales Order
- › Picked Orders grid displaying shipments to be processed
- › Picking registration can be done through Picked Orders grid
- › Picking registration can be skipped and processed during packing process

POSTING AND PRINTING

- › One click to process the entire shipment; posting the packing slip, updating the order, creating and posting an accrual voucher, confirming the shipment to the carrier, returning charges and tracking numbers, printing shipping labels and documents
- › Print Bill of Lading (BOL) for LTL shipments
- › Print carrier certified shipping labels
- › Reprint any or all shipping documents and labels related to a shipment
- › Print Certificate of Origin (COO), Commercial Invoice (CI), US NAFTA Agreement, Canada Customs Invoice, Shipper's Letter of Instruction for international shipments
- › Automatic posting of the packing slip
- › Option to separate posting packing slips process and carrier shipment process
- › Ability to create accrual vouchers (general ledger entry) based on shipping charges and posting profiles

PARCEL WORKBENCH SCREEN

- › Display all shipping related information of a shipment in one easy form
- › Process sales, transfer or output orders via the same process
- › Process single or consolidated orders
- › Pack entire shipment in one box with Pack All, one click
- › Pack all items in separate boxes based on item level parameters with Quick Pack
- › Pack all boxes in separate pallets based on box level parameters with Quick Pallet
- › Allows for over-packing
- › Shipper may override the mode of delivery
- › Saturday pickup and delivery options
- › Ship blind shipments, drop shipments and third-party shipments
- › Modify Delivery addresses. Third-party and blind shipment addresses may be overridden from the Parcel Workbench
- › Handling fees can be added at the box level
- › Insurance options at package level
- › Integration to USB and Serial scales for accurate weight handling
- › Create pallets and easily assign packages to pallets
- › Prepare future-dated shipments to allow packagers prepare shipments ahead of time
- › Shipping station Touchscreen capable
- › Cancel remaining balance
- › Void shipment

INVOICING - MARK UP/DOWN FREIGHT CHARGES

- › Allows mark up/down charges by freight types
- › Use percent, amount or flat fee
- › Use net or list price for applying charges
- › Apply fee minimums to decide to waive charges

SOLUTION

By automating mission-critical processes for parcel and LTL shipping, Blujay's Parcel enables superior cost management, cycle time reductions and faster, more reliable deliveries to customers, meeting the needs of the most demanding shippers. Parcel for D365 Finance and Operations is fully integrated with Microsoft Dynamics® 365FO, providing users with an unprecedented level of control over the entire shipping process, minimizing errors from unnecessary data duplication or re-entry and seamlessly integrating into the ERP workflow.

Part of Blujay's Global Trade Network, Parcel can be deployed to suit your business, either cloud or on-premises. With fast implementation, your solution is up and running quickly, accelerating the delivery of business benefits and return on investment.

Parcel for D365 Finance and Operations enables you to satisfy the needs of your domestic and international shipments, whether you are shipping low volumes of business-critical packages to business customers, or fulfilling the requirements of a high-volume omni-channel retail business. Fully scalable, it allows you to flexibly expand or contract your shipping operation to meet the demands of your business, and your customers. The demonstrated scalability of this solution enables the management of over 2,000 shipping stations from a single deployment – or more than 500,000 shipments from a single facility. Over 5 million cartons are shipped through Blujay's Parcel every day.

This solution supports the broadest set of carriers in the industry, serving both domestic and international requirements, and provides export documentation and compliance checks for all international shipments, supporting even the most sophisticated business rules (e.g. break bulk, advance rate shipping, and multi-leg zone skipping).

Used by thousands of companies every day, Blujay's Parcel accelerates the critical last mile. It provides you with the confidence that no matter where shipments are destined, or where they originate, your shipments will be delivered on time, cost efficiently, and with minimal interruption.

Blujay's Parcel for D365 is scalable to handle fluctuating volume in any node/any mode, from one global platform, providing global visibility and access to international shipping services.

ABOUT BLUJAY SOLUTIONS

Blujay Solutions delivers supply chain software and services to the world's most progressive retailers, distributors, freight forwarders, manufacturers, and logistics service providers.
