

BluJay and NMB Launch Parcel for Dynamics 365 for Finance and Operations

Now available on Microsoft AppSource, enterprise-class Parcel solution offers seamless integration for D365 users

Amsterdam – March 25, 2019 – BluJay Solutions, a leading provider of supply chain software and services powered by the world’s first Global Trade Network, together with NMB Solutions Canada Inc, today announced the release of Parcel for Dynamics 365 for Finance and Operations. The enterprise-class Parcel solution is available on Microsoft AppSource and provides a seamless integration to multi-carrier parcel and LTL shipping for D365 users. More than 4.5 billion packages are shipped annually using BluJay’s Parcel technology.

“We are pleased to announce this strategic partnership with NMB to offer Parcel for Dynamics 365 Finance and Operations, giving D365 users a world-class solution for more efficient shipping operations,” said Tim Conroy, Senior VP Sales, Americas at BluJay Solutions. “Customers benefit from increased productivity and reduced shipping costs, with a seamless integration certified by Microsoft.”

Parcel for Dynamics 365 is a flexible multi-carrier parcel solution that enables companies to pack and ship smarter, reducing time and cost per package and providing the ability to deliver shipping charge estimates to their customers. Users can also manage compliance such as Automated Export System (AES) and Denied Party Screening as part of the solution. In addition, the certified integration means that the Parcel for Dynamics 365 conforms to the update schedule for Microsoft D365 Finance and Operations.

“Our strategic sales and marketing partnership with BluJay allows us to concentrate on bringing the full complement of modules comprising BluJay’s Global Trade Network directly into Microsoft Dynamics 365 Finance and Operations, while leveraging the global reach and presence of BluJay Solutions,” said Christopher Morgan, VP Operations for NMB Solutions Canada Inc. “Parcel for D365 Finance and Operations brings powerful and easy-to-use shipping and compliance management to D365FO Advanced Warehousing and WMS.”
